Audience: Juniors, Seniors, Graduate Students

IEEE-HKN 2026 Student Leadership CONFERENCE

> I got my dream job at the 2024 SLC in the nuclear industry and couldn't be happier"
>
> Molly Coonfield, HKN Student

The annual IEEE-HKN Student Leadership Conference (SLC) is a time-honored tradition that brings together leaders and members from HKN chapters around the world. This three-day event features tracks for leadership training, faculty advisor programming, technical presentations, professional development, labs, workshops, and a career and graduate school fair. This is a unique opportunity for industry, technical societies, and graduate schools to interact with and present to the HKN student community of top undergraduate juniors and seniors and graduate students. We expect over 350 students from over 80 universities in the U.S. and around the world. The program is designed to give sponsors the ability to present, interact, recruit, interview, and engage in technical discussions and career conversations. The event also includes a Recruitment Fair. Check out the video from our last SLC.

In 2026, the SLC will feature a Papers Track: Innovating the Future: Graduate Research at the Frontier of IEEE Technologies. It is dedicated to showcasing the pioneering work of student researchers currently enrolled in accredited institutions of higher education. Sponsor packages can include the advance workshop series, mentorship, and in the Proceedings that will be published in IEEE *Xplore*.

Contact us to customize a package that meets your goals.

Single- and multi-event sponsorships, and digital advertising opportunities are available. **Contact Nancy Ostin at n.ostin@ieee.org**
