**Recruit Talent and Reach IEEE-HKN's Exclusive Audience
of Top Electrical and Computer Engineers and Computer Scientists**

FREQUENCY: Three times per year

READERSHIP: 30,000 of the top engineering students and practitioners

THE BRIDGE, the award-winning digital magazine of IEEE-Eta Kappa Nu, publishes three times a year. It's a perfect platform to promote your company or university to IEEE-HKN members. Each issue is delivered via email to 30,000 of the top undergrad and graduate students and young and seasoned professionals in the IEEE fields of interest.

We have opportunities for advertorials and ads in the main publication and special opportunities in our Graduate Research Spotlight section.

In addition to the current circulation of *THE BRIDGE*, IEEE-HKN inducts over 3,000 new top engineering students each year, which increases the ability to impact an important and ever-growing demographic.

THE BRIDGE is downloadable from the HKN.org website and the IEEE app Year-round. (*THE BRIDGE* is the 2nd most downloaded publication on the IEEE app)

FULL AND HALF-PAGE ADS ALSO INCLUDE:

- A permanent link to your URL on the HKN.org *THE BRIDGE* page
- A direct link to your ad in the distribution email

8 Tips for Handling a Job Search While Working Full-Time

More Danon

Job searches tend to be stressful no matter what the circumstances, and this is no less true for those looking for a job who already work full-time.

Conducting a job search while gently employed requires a certain amount of stealth and precision to keep a current employer from finding out that a valued employee is looking for employment elsewhere. Worst case scenario is that a current employer might view the search for employment elsewhere as an act of disloyalty to the company, and such an act may encourage that employer to begin to lean on their own search—for a replacement.

Following is a list of dos and don'ts to consider when conducting a job search while already employed.

- 1. Avoid advertising it**
A job search should be conducted discreetly when an applicant is already employed. That means those in search of a new job should not announce it on LinkedIn or any other social media platform where it could get back to a current employer. Likewise, applicants should not post their resumes on job boards in their industry. The internet can be a very small world, but it is vast.
- 2. Do not use employer time or equipment to search**
While it might be difficult, avoid conducting a job search during work hours as much as possible. Likewise, avoid conducting a search using company equipment. Job searches conducted using a work issued laptop or other device will undoubtedly be tracked by the IT department of a current employer.

3. Interview outside traditional work hours
An attentive boss will notice an uncharacteristic spate of mid-day appointments and potentially unearth what an employee is up to. As such, it makes sense to schedule all interviews, either before the start of a workday or at the completion of the workday. Prospective employer may also be willing to accommodate requests for lunch time interviews. Also consider taking a personal or vacation day for such interviews as well or to schedule several interviews for one day.
- 4. Dress for the job you have, not the one you want**
If possible, avoid going to an interview job dressed for a job interview if those clothes are not typical of what is worn on the job at the current office. Dressing more professionally than usual might attract the attention of coworkers or supervisors. To avoid detection by a nosy co-worker or supervisor, wear standard attire to work and change elsewhere ahead of an interview.
- 5. Use references from previous jobs, not from a current job**
Do not use a current coworker, boss or anyone else at a current employer as a reference. Regardless of reasons, word could get out that a valued employee is preparing to leave, which could trigger a host of unexpected—and potentially unwanted—events to unfold.
- 6. Ask for discretion**
Most prospective employers will understand that an employee requires a certain amount of discretion during a job search. Do not hesitate to ask a prospective employer from keeping that information from a current employer and anyone else associated with that employer.
- 7. Keep it tight**
Regardless of what else is going on with the job search, try to maintain previous levels of workplace productivity. There is no telling what could happen by not completing current work-related tasks around the timing of an interview. Interviews being passed over for a new job will leave an employee in their current one. Employees should avoid jeopardizing future reviews, recommendations and any goodwill built up during their employment history by maintaining the status quo.
- 8. Do not badmouth**
Badmouthing a current or previous employer is never a good strategy and prospective employers tend to take notice, perhaps ensuring that same conversation being had about them at some future date. Such badmouthing will reflect more on the candidate than on the candidate's previous employer. Avoid badmouthing them at all costs.

Summary
Perhaps what is most important to keep in mind while looking for a new employer while maintaining employment at a current one is to realize that not every job interview ends in a job offer. As such, it is critical to keep this information as private as possible.

Worcester Polytechnic Institute

Multidisciplinary Research Areas

- CYBERSECURITY
- INTELLIGENT SYSTEMS
- AUTONOMOUS VEHICLES
- MACHINE LEARNING
- DATA SCIENCE
- ROBOTICS
- BIOMEDICAL
- HEALTH CARE DELIVERY

At WPI your graduate work will go beyond the classroom. You are continuously dedicated to delivering exceptional research experiences. With engaged advisors and mentors, students pursue inquiry grounded in solving complex real-world problems. Your discoveries are supported from idea to lab to marketplace.

MS and PhD Programs

- Electrical and Computer Engineering
- Computer Science
- Data Science
- Biomedical Engineering

Admissions Information

- PhD thesis may count toward PhD GRE not required to apply
- Fellowship/TARA funding available
